

## Step 1

← Press ALL (power) upper right button

This will turn on TV and Cable.

The **Spectrum** remote controls TV and Cable.

If TV was not properly shut off the TV will show No Signal/No Source.

Pick up Samsung (longer thinner) remote. Go to Step 2

TV is on but No Signal/No Source appears.

## Step 2

Use Samsung remote (longer thinner) remote. This remote controls the input source.

Press upper right **SOURCE** button.

Change the source to TV.

Before checking out of condo please be sure the source is set to TV for next owner/renter.

**Always turn TV off with upper right ALL (power) button on SPECTRUM remote.**

This Samsung remote is for the DVD player. If you wish to use the DVD player. The TV must be on as in Step 1.

This is the source screen that will appear in Step 2.

Your DVD may be plugged into a different HDMI port.

Check back of TV.
